

## What is PF Nexus' Approach to Privacy?

PF Nexus is an organisation built on a culture of data privacy. We aim to collect information on a “need to know” basis and operate with our customers best interest at heart. The prevailing test for all our actions as an organisation and the actions our individuals are engaged in must meet a simple test: “If this was data about my business, would I be happy for the data to be used in this way?”

## Does this Data Protection policy apply to me?

Yes, this policy applies to all businesses and consumers that engage with PF Nexus, because new General Data Protection Regulation, or GDPR, was adopted by the European Council in April 2016 and comes into force across all EU member states on the same day: 25 May 2018.

The ambition for GDPR is to clarify obligations, make them more consistent across Europe and thereby improve trust among businesses and consumers in the way their data is handled. PF Nexus welcomes standards such as GDPR, since it allows us to operate our business on the same high standards in many countries.

Since GDPR comes into force before the date Britain is scheduled to leave the EU, the UK government has confirmed the regulation will apply.
